e-PROCESS

For some, the path to self-discovery is a remote and unpaved road. And it's for these intrepid souls that the 2013 Toyota 4Runner was designed. With its reinforced body-on-frame construction and its long list of standard and available technologies, 4Runner is the kind of SUV that's always ready for remote and rugged adventures. Over the years, its reputation for durability and longevity has become legendary. And now, J.D. Power and Associates has named 4Runner the "Most Dependable Midsize Crossover/SUV."¹ It's no wonder that over 80% of 4Runners sold in the last ten years are still on the road.² Not to mention, off the beaten path. So the only question is: You in? **2013 Toyota 4Runner.**

Real adventure is not to be taken lightly. That's why real adventurers rely on the dependability of the Toyota 4Runner. They know that the rugged 4Runner is built not only to get you out to the action, but also to get you back in one piece.

1. The Toyota 4Runner received the lowest number of problems per 100 vehicles among midsize crossovers/SUVs in the proprietary J.D. Power and Associates 2011 Vehicle Dependability Study.SM Study based on 43,779 consumer responses measuring problems consumers experienced in the past 12 months with three-year-old vehicles (2008 model year cars and trucks). Proprietary study results are based on experiences and perceptions of consumers surveyed October-December 2010. Your experiences may vary. Visit jdpower.com. **2.** Based on Polk U.S. Vehicles In Operation registration statistics MY 2001-2010 as of July 2010.

EXPERIENCE

SR5 4x4 shown in Salsa Red Pearl with available accessory roof rail cross bars

When it comes to overall SUV prowess, 4Runner's got the competition eating dust. Responsive performance is provided by an efficient V6 with Dual Independent Variable Valve Timing with intelligence (VVT-i) coupled to a smooth-shifting 5-speed ECT-i automatic transmission. And 4-piston front brakes make short work of braking. Seems that even when stopping, 4Runner is way ahead.

It's a tough act to follow. But follow they do.

270-HP V6 Engine With Dual Independent Variable Valve Timing With intelligence (VVT-i)

Efficient use of resources is crucial when venturing into the unknown. That's why 4Runner's V6 engine employs Dual Independent Variable Valve Timing with intelligence (VVT-i). It's an advanced system that precisely times the opening and closing of the engine's intake and exhaust valves to maximize power while reducing its fuel consumption. This level of technology helps 4Runner deliver 270 hp, a mighty 278 lb.-ft. of torque and a 5000-lb. towing capacity.¹ But what may be even more impressive is that it generates all that power while achieving an EPA-estimated 22 highway mpg.²

5-Speed ECT-i Automatic Transmission

One of our most advanced automatic transmissions, this 5-speed transmission has a computer that networks with the engine's computer to control hydraulic shift pressure more precisely. The 5-speed ECT-i also makes automatic adjustments to help reduce transmission wear over time.

DEALERS
APPROVES

Trail shown in Classic Silver Metallic.

Out here, lesser vehicles are endangered species.

Sure, 4Runner has impeccable manners on pavement. This SUV, however, thrives in more than one natural habitat. 4Runner provides ample ground clearance, along with steep approach and departure angles to help clear imposing terrain. And 4Runner Trail features an available Kinetic Dynamic Suspension System (KDSS) that relaxes sway control for enhanced wheel articulation over deep ruts and large obstacles. Because when the pavement ends, only the strong survive.

Available 4WD With A-TRAC and 2-Speed Transfer Case

Using sensors at all four wheels to monitor a loss of traction, Active Traction Control (A-TRAC) helps reduce wheelspin by employing brake and throttle control and transferring torque to the wheel with the most traction. All 4WD vehicles require a system to transfer power from the transmission to both front and rear wheels. 4Runner's transfer case has two gear ranges: high and low. Low range is used for extreme low-speed off-road conditions.

Locking Rear Differential

To help you negotiate uncertain terrain, 4Runner Trail has an electronically controlled locking rear differential that distributes engine power evenly to both rear wheels, so they move at the same speed, even if one is off the ground. It also ensures a predictable output to help you maintain a controlled pace over obstacles.

Crawl Control¹ (CRAWL) and Multi-terrain Select

For specific off-road conditions, 4Runner Trail has two driver-selectable features that help you negotiate off-road obstacles with controlled-speed maneuvers. Crawl Control modulates the electronic throttle and brakes to help maintain one of three set speeds. For better off-road performance and traction, Multi-terrain Select lets you choose from four terrain modes: "Mud and Sand," "Loose Rock," "Mogul" or "Rock."

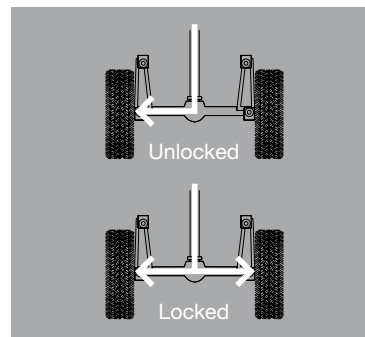

HAC² and DAC²

If you're at a stop on a steep uphill grade, Hill Start Assist Control (HAC) can help you get moving again. HAC helps prevent the vehicle from rolling backward as the driver switches from the brake to the accelerator. It detects backward rotation of the wheels, then gently applies the brakes, giving you time to engage the accelerator. Available Downhill Assist Control (DAC) helps provide a controlled descent on steep inclines. It sets a target vehicle speed of approximately 2-4 mph and helps maintain that speed by signaling the brakes to modulate automatically.

FULL-SIZE SPARE

When the terrain is unforgiving and civilization is half a day's drive away, you can't afford to be saddled with anything less than a full-size spare. That's why one comes standard on all 4Runner models.

1. See footnote 2 in Disclosures section. 2. See footnote 26 in Disclosures section.

In this spacious cabin, the views are commanding. Notice the quality of light: The Optitron instrumentation on Trail and Limited models uses LEDs (light-emitting diodes) for clarity and reduced eye fatigue. And available voice-activated touch-screen navigation¹ takes the guesswork out of venturing into the unknown. As they say: You can take 4Runner out of civilization, but you can't take the civility out of 4Runner.

Welcome to base camp.

Available Voice-Activated Touch-Screen DVD Navigation

Featuring a large, high-resolution 7-in. display, this navigation system offers a multitude of advanced features, such as *Bluetooth*² wireless technology, integrated backup camera³ display, voice recognition, embedded points of interest, a superb JBL[®] audio system, CD and MP3/WMA capability, SiriusXM Radio⁴ with NavTraffic[™]4 with 90-day complimentary trial, a USB port⁵ with iPod[®]⁶ connectivity and auxiliary audio jack.

Display Audio With Navigation and Entune[®]7

For those who want an embedded navigation system at a great value, this available system is impressive, with such features as a 6.1-in. touch-screen with integrated backup camera display, AM/FM CD player with MP3/WMA playback capability, eight speakers, SiriusXM Radio with 90-day complimentary trial, auxiliary audio jack, USB port with iPod[®] connectivity and control, hands-free phone capability, phone book access, advanced voice recognition and music streaming via *Bluetooth*[®] wireless technology.

JBL[®] Audio System

Lending the soundtrack to your many adventures is 4Runner Limited's available JBL[®] audio system. To ensure you don't miss a note of your music's soaring highs or thundering lows, the system boasts an amazing 15 speakers, including a subwoofer. It also features music streaming via *Bluetooth*[®] wireless technology, SiriusXM Radio capability, CD and MP3/WMA capability, USB port and auxiliary audio jack. The system can also make use of the standard Party Mode equalizer switch that equalizes the output to enhance the sound for those sitting on the available sliding rear cargo deck.

SMART KEY SYSTEM⁸

With 4Runner Limited, you can use the key fob to unlock doors and open or close the power rear liftgate window. Plus, with the key securely in your pocket or bag, you can start the engine by pushing a button on the dash.

DUAL ZONE CLIMATE CONTROL

With 4Runner Limited's dual zone climate control, the driver and front passenger can each set the temperature to their own comfort level. Rear-seat ventilation and an air filtration system also add to the high level of comfort.

AVAILABLE BACKUP CAMERA AND PARKING ASSIST SONAR

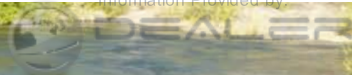

When backing up, the area visible to the camera is displayed on the rearview mirror or on the available navigation screen. 4Runner SR5's sonar beeps to tell you how close the rear bumper is from an object. The faster it beeps, the closer it is.

ENTUNE[®]

The available Entune[®] system allows access to popular mobile applications and data services integrated with select Toyota vehicles.

See footnote 16 in Disclosures section.

Limited 4x4 interior shown in Sand Beige with available voice-activated touch-screen DVD navigation system.¹ 2012 model shown.

1. See footnote 11 in Disclosures section.

The cabin is spacious. The possibilities, endless.

When you're living an "anytime, anywhere" lifestyle, your vehicle had better be accommodating. The 2013 4Runner exceeds that bold challenge with an ingeniously designed interior. Its versatile seats readily configure to handle any cargo or passenger combination. And access to your gear has been made easy with not only a power rear window, but also a handy available sliding rear cargo deck. Adventure has never been so effortless.

Leather-Trimmed Seating

For those who demand deluxe accommodations, 4Runner offers a leather-trimmed interior. Standard on Limited and available on SR5, seats include an 8-way power-adjustable driver's seat with power lumbar support and 4-way power-adjustable front passenger seat. And for those chillier excursions, both front seats are heated.

Versatile Storage and Available 120V/400W AC Power Outlets

Often, it's the little things that make a big difference. 4Runner provides a variety of storage options, including a dual-level glove box, center console and several handy door pockets. Plus, available front and rear 120V power outlets to give you power on the go for your personal electronics.

POWER REAR WINDOW

The 89.7 cubic feet^{1,2} of cargo space is quickly accessed by dropping the power rear liftgate window. The window can be lowered with the push of a button on either the dash, key fob or 4Runner Limited's buttons located on the rear license plate garnish.

SLIDING REAR CARGO DECK

Whether you're trying to reach your gear in the back or just get a better view into the cooler, the available³ sliding rear cargo deck is the perfect accessory. The sliding deck is not only handy, it can also support up to 440 lb.

40/20/40 SECOND-ROW SEAT

Handy and hospitable, the split-and-fold versatility of 4Runner's second-row seat offers a variety of seating and storage configurations. Plus, the outboard seats recline separately to help those passengers meet their individual comfort requirements.

1. See footnote 3 in Disclosures section. 2. Without sliding rear cargo deck. 3. Standard on 4Runner Trail.

Limited 4x4 interior shown in Sand Beige with available voice-activated touch-screen DVD navigation system¹ and 50/50 split fold-flat third-row seat.

1. See footnote 11 in Disclosures section.

To your sense of adventure, add common sense.

While your many adventures have earned you a bold reputation, you're not a danger seeker. Neither are we. That's why we've equipped the 2013 4Runner with an array of active and passive safety features. The standard Star Safety System™ is designed to help you avoid trouble. Our rigorous crash testing has helped us develop a comprehensive occupant protection system that features eight standard airbags¹, should trouble prove unavoidable.

Star Safety System™

Everyone deserves to be safe. That's why 4Runner, like every 2013 Toyota, comes standard with the Star Safety System,™ a suite of six active safety features designed to help keep you out of harm's way. The system includes Vehicle Stability Control (VSC)², Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA)³ and Smart Stop Technology (SST)⁴.

Eight Standard Airbags

Should a collision occur, 4Runner provides a comprehensive airbag system as standard equipment. The system includes driver and front passenger airbags, driver and front passenger Thorax, Abdomen, Pelvis (TAP) seat-mounted side airbags, all-row Roll-sensing Side Curtain Airbags (RSCA), and driver and front passenger knee airbags.

Safety Connect®⁵

Via Toyota's 24/7 call center, 4Runner Limited's Safety Connect® offers subscribers helpful features such as Emergency Assistance, Stolen Vehicle Locator, Roadside Assistance and Automatic Collision Notification. Safety Connect® also offers the reliability of embedded cellular and GPS technology.

Not all collisions call for maximum airbag deployment. 4Runner's Advanced Airbag System is designed to provide appropriate protection based on the situation. In certain types of frontal collisions, the system senses impact severity, adjusting deployment accordingly.

Front seat-mounted side airbags help provide protection to the driver and front passenger in the event of certain types of severe side-impact collisions.

The front seats also incorporate active headrests⁶ which move up and forward, helping to reduce the severity of whiplash injuries to the driver and front passenger in the event of certain lower-speed rear-end collisions.

Roll-sensing Side Curtain Airbags (RSCA) help provide protection for all rows of seats in certain types of side collisions and in the event of a roll.

LATCH (Lower Anchors and Tethers for CHildren) includes lower anchors on outboard second-row seating positions.

SR5 shown in Magnetic Gray Metallic with available backup camera, Convenience Package and accessory roof rail cross bars.

Owning a 4Runner says a lot about you — even in places where it seems only the trees are listening. And to help you make the right statement, Genuine Toyota Accessories offers a full line of quality products. From cross bars and cargo covers, to exhaust tips and running boards, Genuine Toyota Accessories has just what you need to express yourself.

Make a statement where no one can hear it.

ACCESSORIES

Ashtray
Cargo divider
Cargo mat
Cargo net – envelope
Cargo net – spider
Cargo tote
Cargo tray
Carpet floor mats¹
Door edge guards
Emergency assistance kit
First aid kit
Hood protector
Paint protection film

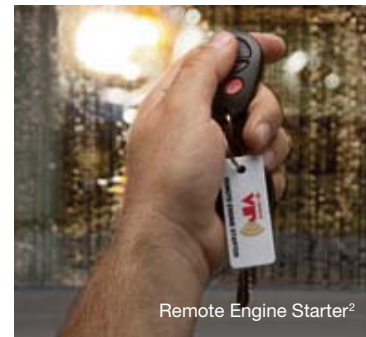

Rear-seat entertainment system

Roof rail cross bars
Running boards
7-pin to 4-pin adapter
TRD air filter
TRD oil cap
TRD oil filter
TRD performance brake pads
TRD radiator cap

REMOTE ENGINE STARTER

In cold or hot weather, make sure your 4Runner is comfortable before you get in. Start the engine from the comfort of your house, and the air conditioner, heater, defroster and defogger begin operating at their last settings. It's integrated into your factory keyless entry system, so no additional remote is necessary.

Running boards

Remote Engine Starter²

CARGO TRAY

Protect your cargo from dirt, water and other debris. Custom-fitted to 4Runner's cargo area, this tough tray is molded from a flexible polymer blend with a skid-resistant surface to help keep things in place. The tray also features a perimeter "lip" to help contain spills.

Cargo tray

1. This floor mat was designed specifically for use in your model and model year vehicle and **SHOULD NOT** be used in any other vehicle. To avoid potential interference with pedal operation, each mat must be secured with retention hooks/clips. Do not install a floor mat on top of an existing floor mat. **2.** Key fob design varies by model. Available for vehicles with keyless entry only.

TOYOTA FINANCIAL SERVICES

Toyota Rewards Visa[®]

Toyota helps you get more out of every dollar you spend. By rewarding you for every purchase you make, the Toyota Rewards Visa[®] adds even more value to doing the things you love.

Turn everything you buy into points to redeem toward parts, accessories or an eligible vehicle purchase or lease at your Toyota dealer. Earn 5 points for every \$1 spent at participating Toyota dealers and 1 point for every \$1 spent everywhere else Visa is accepted.*

Visit www.toyotarewardsvisa.com for complete details.

Toyota Financial Services (TFS)[†] is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points earned are based on net purchases. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The creditor and issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank. Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

[†]Toyota Financial Services is a service mark for Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc.

See numbered footnotes in Disclosures section.

DISCLOSURES

Information Provided by:

1. Torsen® is a registered trademark of Zexel Torsen, Inc. **2.** The Toyota 4Runner is designed to meet most off-road driving requirements, but off-roading is inherently dangerous. Abusive use may result in bodily harm or vehicle damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. **3.** Cargo and load capacity limited by weight and distribution. **4.** Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your *Owner's Manual*. The maximum you can tow depends on the total weight of any cargo, occupants and available equipment. Calculated with new SAE J2807 method. **5.** 2013 EPA-estimated mileage. Actual mileage will vary. **6.** Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. **7.** XM services require a subscription after trial period, and are sold separately or as a package. **Subscriptions governed by SiriusXM Customer Agreement; see www.siriusxm.com. If you decide to continue your XM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. **8.** May not be compatible with all mobile phones, MP3/WMA players and like models. **9.** iPod® is a registered trademark of Apple Inc. All rights reserved. **10.** The *Bluetooth®* word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Toyota is under license. Other trademarks and trade names are those of their respective owners. The *Bluetooth®* wireless technology phones listed on toyota.com have been tested for compatibility with Toyota vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Toyota. **11.** Availability and accuracy of the information provided by the navigation system or any XM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic navigation updates available at additional cost. See your *Navigation System Owner's Manual* or contact XM for details. **12.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. Select Entune® apps use a large amount of data and you are responsible for all data charges. Apps and services vary by phone and carrier. Apps identified by "TM" or "®" are trademarks or registered trademarks of their respective companies and cannot be used without permission. See toyota.com/entune for the latest information regarding apps and services. **13.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **14.** HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **15.** iTunes® Tagging is a registered trademark of Apple Inc. All rights reserved. **16.** The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **17.** The backup camera uses navigation system display on vehicles so equipped. **18.** HomeLink® is a registered trademark of Johnson Controls, Inc. **19.** Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **20.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **21.** Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. **22.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your *Owner's Manual* for further information/warnings. **23.** Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **24.** The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. **25.** Available on select Toyota models. Contact with the Safety Connect® response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency service support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Safety Connect®-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. **26.** DAC is designed to help the driver maintain vehicle control and speed on steep downhill descents. HAC is designed to help minimize backward rolling on steep ascents. Neither system is a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether DAC and HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **27.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or Smart Key fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or Smart Key fob, it can be costly to replace. If you lose a key or Smart Key fob, your Toyota dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org **28.** Requires Premium Package.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

Basic: 36 months/36,000 miles (all components other than normal wear and maintenance items).

Powertrain: 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

Rust-Through: 60 months/unlimited miles (corrosion perforation of sheet metal).

Emissions: Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details.

Accessories: For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty.

You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Warranty and Maintenance Guide* or see your Toyota dealer.

Toyota 4Runner is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing receiver hitches/ball mount kits are not intended to provide crash protection.

For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.

For Toyota Mobility program details, go to www.toyota.com/mobility or call the Toyota Customer Assistance Center at 1-800-331-4331
