Built for the long haul. The 2020 Toyota Tacoma.

Your weekends aren’t average, and Tacoma is no average truck. Built from the same tough stuff that’s made Toyota trucks legendary, the refreshed 2020 Toyota Tacoma brings more tech, more capability and more confidence to your outdoor adventures. Its available new tech includes panoramic view monitor (PVM), Multi-terrain Monitor (MTM) and the smart compatibility of Apple CarPlay®, Android Auto™ and Amazon Alexa. Best of all, it comes in a package designed to get you to the campsite — and back — without breaking a sweat. So gear up, get in and get ready to start your next epic adventure.
TRD Off-Road Double Cab shown in Cement with available TRD Premium Off-Road Package, Advanced Technology Package™ and LED headlights and fog lights. Prototype shown with options.

See footnote 59 in Disclosures section for more information on payload. See numbered footnotes in Disclosures section.
A heritage of toughness.

Tacoma was first introduced in 1995, when it carried forth the unbreakable spirit of icons like Hilux and Land Cruiser. But Tacoma’s legacy goes back further than that — much further. In fact, Toyota’s been making trucks for over 50 years, so it’s no surprise that our trucks have come to define the word “tough.” We poured these decades of know-how into each and every Tacoma, which is why it remains one of the best-loved trucks today.
Tacoma TRD Off-Road and Tacoma TRD Sport.

One awesome builder. Two awesome trucks. Thanks to the team at Toyota Racing Development (TRD), there's a Tacoma that's sure to fit any lifestyle. Tacoma TRD Off-Road features a locking differential, a TRD-tuned suspension, Bilstein® shocks and unique Goodyear® Wrangler® tires — all of which help smooth out the rough stuff when the trails get wild. And for those who want to make a statement on paved roads, Tacoma TRD Sport comes standard with new 17-in. alloy wheels, a road-tuned suspension and revised chassis for more direct steering, and smoother on-road handling.

TRD Off-Road Double Cab shown in Cement with available TRD Off-Road Premium Package, Advanced Technology Package© and LED headlights and fog lights.
TRD Sport Double Cab shown in Voodoo Blue with available TRD Sport Premium Package, Advanced Technology Package and LED headlights and fog lights. Prototypes shown with options.

See numbered footnotes in Disclosures section.
Wears dirt like a badge of honor.

Whether freshly waxed, coated in dust or caked in mud, Tacoma’s good looks impress from every angle. Up front, its aggressive grille and available hood scoop hint at the power that lies under the hood. The strong profile reveals chiseled lines, muscular fenders and a purposeful off-road stance. Out back, a tailgate embossed with the Tacoma logo finishes off this truck’s athletic look.

**AVAILABLE LED HEADLIGHTS**

Tacoma’s available LED headlights use LED lightbulbs for both the low and high beams, giving you bright, efficient light when you need it. And since they’re bolted to the front of Tacoma, you can bet that they look awesome too.

**18-IN. ALLOY WHEELS**

Tacoma Limited’s wild style gets civilized with its standard 18-in. polished alloy wheels.

**REAR COMBINATION TAILLIGHTS**

Dark bezel taillights give TRD Off-Road and TRD Sport a bold touch. And on Limited, these lights feature clear lenses to add just the right amount of sophistication.

See numbered footnotes in Disclosures section.
AGGRESSIVE STYLING

TRD Off-Road Double Cab shown in Cement with available TRD Premium Off-Road Package, Advanced Technology Package™ and LED headlights and fog lights. Prototype shown with options.

See footnote 66 in Disclosures section for more information on off-roading. See numbered footnotes in Disclosures section.
The power to rule any road. The toughness to rule any trail.

When life gets more epic, so do the toys. Good thing Tacoma’s got the brawn to help bring them all with you. When equipped with the available 3.5-liter V6, which includes a standard Tow Package, this truck can tow up to 6800 lbs.31 And the 4-/7-pin connector sits cleanly inside the three-piece bumper, helping you haul things out without hitting any snags.
TRD Off-Road Double Cab shown in Cement with available TRD Premium Off-Road Package, Advanced Technology Package® and LED headlights and fog lights. Prototype shown with options. See footnote 51 in Disclosures section for more information on towing. See numbered footnotes in Disclosures section.
Obstacles don’t stand a chance.

This is where the rubber meets the dirt. With available equipment like an electronically controlled locking rear differential, Crawl Control (CRAWL) and Multi-terrain Select (MTS), Tacoma is ready to take on difficult terrain. We’re talking the same legendary capability that has given Toyota trucks the reputation they’re known for around the world. So when the trail gets tough, this truck’s got the guts to keep going.

CRAWL CONTROL (CRAWL)49
When the trail gets challenging, Tacoma TRD Off-Road’s Crawl Control (CRAWL) is here to help you conquer your off-road adventure. This advanced system automatically modulates the throttle and brakes on five low-speed settings so you can keep your focus on navigating difficult terrain.

ELECTRONICALLY CONTROLLED LOCKING REAR DIFFERENTIAL
Tacoma TRD Off-Road’s standard electronically controlled locking rear differential distributes engine power evenly to both rear wheels so they move at the same speed, providing more grip in low-traction conditions.

MULTI-TERRAIN SELECT (MTS)
Tacoma TRD Off-Road features Multi-terrain Select (MTS). With five modes to choose from, this system helps regulate wheelspin by automatically adjusting the engine throttle and traction control. When combined with standard Goodyear Wrangler tires with tough Kevlar construction, MTS helps noticeably to improve traction.

See footnote 66 in Disclosures section for more information on off-roading. See numbered footnotes in Disclosures section.
TRD Off-Road Double Cab shown in Cement with available TRD Premium Off-Road Package, Advanced Technology Package®, and LED headlights and fog lights. Prototype shown with options.

TRD Pro Double Cab shown in Super White with available Desert Air Intake. Prototype shown with options. See footnote 66 in Disclosures section for more information on off-roading. See numbered footnotes in Disclosures section.
The interior features unique leather-trimmed seats with the TRD Pro logo embroidered on the headrests, TRD Pro floor mats and a leather-wrapped shifter with a TRD shift knob. With its red contrast stitching, embossed TRD logo and bright chrome accent ring, taking control never looked—or felt—so good.

TRD PRO SERIES SKID PLATE
A unique TRD Pro skid plate comes standard on Tacoma TRD Pro. Constructed from ¼-in.-thick aluminum, this piece of armor helps protect crucial mechanical components underneath the front end.

TRD PRO SERIES WHEELS
Not just a pretty face, these 16-in. TRD Pro black alloy wheels are constructed to provide an ideal balance of strength and weight savings. Each of these wheels comes wrapped in Goodyear Wrangler All-Terrain tires for enhanced traction on- and off-road.

TRD-TUNED FOX INTERNAL BYPASS SHOCKS
This is hard-core engineering. TRD-tuned FOX® Internal Bypass shocks give you the ultimate in performance and control. These shocks feature 2.5-in. aluminum housings, hardened, oversize shafts, and remote reservoirs in the rear. They are designed to help provide more ground clearance, more travel, maximum damping and fade-free performance. In other words, this suspension helps smooth out the rough stuff.

TRD PRO SERIES SKID PLATE
A unique TRD Pro skid plate comes standard on Tacoma TRD Pro. Constructed from ¼-in.-thick aluminum, this piece of armor helps protect crucial mechanical components underneath the front end.

See footnote 66 in Disclosures section for more information on off-roading. See numbered footnotes in Disclosures section.
Leaves limits in its dust.

Designed by the gurus at Toyota Racing Development (TRD), the 2020 Toyota Tacoma TRD Pro is built to take on the world’s gnarliest terrain. The stuff you want — like a TRD-tuned suspension with 2.5-in. FOX® Internal Bypass shocks, a ¼-in.-thick aluminum skid plate and Rigid Industries® fog lights — all comes standard. A mandrel-bent TRD exhaust and available TRD Pro Desert Air Intake help optimize engine performance too. It’s the same proven capability that’s helped the TRD Pro Series deliver its unique brand of fun everywhere from the scorching desert to the Arctic Circle, and it’s ready for your next big adventure. Things are about to get a lot more epic. Let’s get dirty.

TRD Pro Double Cab shown in Super White with available Desert Air Intake. Prototype shown with options.

See footnote 66 in Disclosures section for more information on off-roading. See numbered footnotes in Disclosures section.
What is TRD?

Toyota Racing Development (TRD) is Toyota’s factory-backed racing division. While TRD USA has been building go-fast parts for Toyotas since 1979, our racing legacy traces back well over two decades before that. With a history rich in motorsports, TRD engineers have continued to apply their knowledge to help enthusiasts get more performance from their vehicles, while maintaining factory levels of quality and reliability. Our TRD Pro Series vehicles are factory-tuned and built to take you way off-road. These are more than just parts; our engineers spend countless hours designing, testing and tuning with passion. And with capability this exciting, they will help fuel your passion too.

ACCESSORIES

You know your Tacoma is supremely capable right out of the box. But when you want to crank up the attitude, turn to those who know your truck best. Toyota Racing Development (TRD) brings you a line of accessories engineered just for your Tacoma. Each and every part is designed to give you maximum performance with proven dependability. And it’s all available from your local Toyota dealer. All you have to do is pick out which parts are right for you.

OTHER TRD PERFORMANCE PARTS AND ACCESSORIES

- TRD 16-in. off-road beadlock-style alloy wheel
- TRD air filter
- TRD exhaust system
- TRD oil cap
- TRD oil filter
- TRD performance air intake system
- TRD radiator cap
- TRD shift knob (A/T)
- TRD shift knob (M/T)

See footnote 66 in Disclosures section for more information on off-roading. See numbered footnotes in Disclosures section.

RIGID INDUSTRIES® LED FOG LIGHTS

Engineered by TRD, these intense LED fog lights pack a lot of brightness into a compact package. Aluminum housings feature the Rigid Industries® logo, and rugged construction helps ensure that these lights can endure harsher environments. With their wide-angle beam pattern, these lights help ensure you have light when, and where, you need it.

TRD EXHAUST

The bark to match the powerful V6 bite. This cat-back exhaust is constructed from 304 stainless steel, and its precise CNC mandrel bends help maximize efficiency. Helping finish off the package is a black, chrome-plated, dual-walled tip with embossed TRD logo.

TRD PRO DESERT AIR INTAKE™

Breathe easier. Designed by TRD, this available air intake places an air inlet high above Tacoma’s windshield. It draws cool, fresh air from high above the dustline.
Leave nothing behind.

Bikes. Boards. You name it. Tacoma’s standard composite bed surface is built to withstand the bumps, impacts and scuffs of your rough-and-tumble adventure. Its integrated heavy-duty deck rail system offers lots of adjustment, making it easy to tie down gear of all sizes. Now, when action calls, you’ll be ready to go.

**COMPOSITE BED**

Don’t call it a bedliner. Tacoma’s bed is composed of an ultra-durable, fiber-reinforced Sheet-Molded Composite (SMC) surface. This rugged tech boasts a greater impact strength than steel and will help keep the bed of your Tacoma looking good for years to come.

**AVAILABLE 120V/400W OUTLET**

Plug it in. An available bed-mounted 120V/400W AC outlet helps you keep your air compressor, lighting rigs and other accessories powered up even when you’ve left civilization in your dust.

**DECK RAIL SYSTEM**

When adventure calls, you want to bring your gear along for the ride. That’s why Tacoma’s bed comes standard with an innovative deck rail system. With four heavy-duty adjustable tie-down cleats, Tacoma’s got the strength and adjustability you need to keep your cargo securely strapped down.

See numbered footnotes in Disclosures section.

See footnote 59 in Disclosures section for more information on payload. See numbered footnotes in Disclosures section.
Your go-anywhere command center.

Tacoma may be tough on the outside, but it’s all about comfort inside. For the driver, a clean dash layout features intuitive controls to help keep you in command of it all. Soft-touch materials throughout help everyone relax in style, no matter what seat they grabbed. Tacoma TRD Off-Road and Sport grades bring even more good stuff, including available leather-trimmed seating surfaces and dual zone automatic climate control. And with room for up to five, Tacoma makes it easy to bring the whole crew along for the ride.

**AVAILABLE MOONROOF**
Open up to the elements. An available power moonroof helps bring the outside in, giving you everything from a cool breeze to an epic view of the stars.

**AVAILABLE POWER REAR WINDOW**
Let the outside in. Tacoma’s available power sliding rear window with privacy glass opens with just the touch of a button.

**AVAILABLE POWER-ADJUSTABLE SEAT**
Take comfort to new heights. Tacoma features an available 10-way power-adjustable driver’s seat that includes 2-way lumbar support.
The standard backup camera mounted in Tacoma's tailgate handle helps you see an image of what the camera detects behind you on the available 8.0-in. high-resolution display.

INTEGRATED BACKUP CAMERA™

When backing up on a trail — or just backing out of your driveway — you need to see what's behind you. The standard backup camera mounted in Tacoma's tailgate handle helps you see an image of what the camera detects behind you on the available 8.0-in. high-resolution display.

TRD Off-Road Double Cab interior shown in Black leather trim with available TRD Premium Off-Road Package, Advanced Technology Package™ and LED headlights and fog lights. Prototype shown with options. See numbered footnotes in Disclosures section.
Technology that keeps up with you.

Now there's even more to love about Tacoma. Enjoy a new level of convenience and peace of mind that comes only with Connected Services.¹⁵

**AVAILABLE REMOTE CONNECT**²⁸
Locate your Tacoma in a crowded parking lot, start the engine, lock/unlock your doors and more using your compatible smart devices.²² One-year trial included.²³

**SAFETY CONNECT**²⁹
Because the unexpected can happen at any time of day — or night. Emergency SOS assistance and 24/7 Toyota Roadside Assistance²⁶ provide added peace of mind during your drive. One-year trial included.²⁷

**AVAILABLE DESTINATION ASSIST**²⁴
Need directions? No problem. Destination Assist gives you 24/7 access to a live agent who will help you locate a destination and get directions. One-year trial included.²⁵

**AVAILABLE SERVICE CONNECT**²⁶
You keep track of your health info; now you can do the same for your Tacoma. Service Connect gives you personalized maintenance updates and vehicle health reports. Ten-year trial included.²⁷

See footnote 59 in Disclosures section for more information on payload. See numbered footnotes in Disclosures section.

Apple CarPlay screen shown. Screen depiction accurate as of summer 2019. See numbered footnotes in Disclosures section.
It’s capable on the inside too.

Your location may be remote, but you still want to stay plugged in. Thanks to Tacoma’s tech, you can. Its available Premium JBL® Audio with Dynamic Navigation® keeps you in tune with your music while keeping you on track. And now that Tacoma is available with Apple CarPlay®, just pair your compatible iPhone® to access your music, phone book and more. The addition of Android Auto™ and Amazon Alexa® compatibility also makes it easier than ever to stay connected.

CONNECTED SERVICES

AVAILABLE JBL® SPEAKERS
The perfect soundtrack can make your adventures even more epic. That’s why Tacoma is available with a powerful six-speaker JBL® system that delivers rich, powerful sound.

ANDROID AUTO™
Android Auto™ puts many of your favorite Android™ apps right on Tacoma’s 8.0-in. touch-screen. You can take calls, pull up your favorite playlist and a whole lot more — all while your Android™ phone is safely stashed away.

AMAZON ALEXA® COMPATIBILITY
With the Toyota+Alexa app, you can ask to play music, control smart-home devices, find parking and more — Alexa will respond.®

See numbered footnotes in Disclosures section.
CONNECTED SERVICES

Limited Double Cab shown in Silver Sky Metallic. Prototype shown with options. See numbered footnotes in Disclosures section.

WI-FI CONNECT™
When you enable Wi-Fi Connect, you can turn your Tacoma into a mobile hotspot with 4G connectivity. Up to 2 GB of data during three-month trial.**
Limited Double Cab shown in Silver Sky Metallic with available tonneau cover. Prototype shown with options.
TOYOTA SAFETY SENSE™

High-tech backup for the road ahead.

Toyota Safety Sense™ P (TSS-P)\(^{35}\) is an active safety package that comes standard on every new Toyota Tacoma. This advanced precautionary safety system combines the Pre-Collision System with Pedestrian Detection (PCS W/PD)\(^{36}\) Lane Departure Alert (LDA)\(^{77}\), Automatic High Beams (AHB)\(^{38}\) and Dynamic Radar Cruise Control (DRCC)\(^{39}\) to assist you. TSS-P’s comprehensive features create in-the-moment safety designed to support your awareness and decision-making on the road.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION (PCS w/PD)\(^{36}\)
Pre-Collision System with Pedestrian Detection (PCS w/PD) is designed to help keep the road safe by detecting a vehicle or a pedestrian in certain situations. By combining millimeter-wave radar with a camera capable of shape recognition, the system provides an audio/visual alert, warning you of a possible collision under certain circumstances. If you don’t react, the system is designed for automatic braking support to help mitigate the potential for a collision.

DYNAMIC RADAR CRUISE CONTROL (DRCC)\(^{39}\)
Intended for highway use and similar to “constant speed” cruise control, Dynamic Radar Cruise Control (DRCC) lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. If a driver is traveling slower than you, or within your preset range, DRCC will automatically slow your vehicle down without deactivating cruise control. If DRCC determines you need to slow down more, an audio and visual alert notifies you and brakes are applied.

AUTOMATIC HIGH BEAMS (AHB)\(^{38}\)
The Automatic High Beams (AHB) feature is a safety system designed to help you see more clearly at night — without distracting other drivers. Designed to activate at speeds above 25 mph, AHB relies on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggles between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow for earlier detection of pedestrians and obstacles.

LANE DEPARTURE ALERT (LDA)\(^{77}\)
Under certain circumstances, Lane Departure Alert (LDA) is designed to help detect lane departure on roads with visible lane markings. LDA only activates when you’re traveling at a speed of 32 mph or faster. When you hear and see the alert, after carefully checking the road around you, safely direct your vehicle back to the center of your lane.

In 1979, Toyota Racing Development, U.S.A. was founded and put in charge of improving production vehicles for increased performance. Toyota Racing Development (TRD) also supported Toyota's racing interests around the world, along with producing a line of performance-oriented accessories for Toyota vehicles. This bold step has benefited Toyota owners and racing enthusiasts around the globe. Today our line of TRD accessories will give your Tacoma an edge in both looks and performance. Everything our engineers learned in competition goes into each and every part.

**TRD ACCESSORIES**

TRD 16-in. black alloy wheels  
TRD 16-in. off-road beadlock-style alloy wheels (matte-black, gray or bronze)  
TRD air filter  
TRD air filter cleaning kit  
TRD brake pads  
TRD cat-back exhaust with black chrome tip  
TRD cat-back exhaust with chrome tip  
TRD oil cap  
TRD oil filter  
TRD performance air intake system  
TRD Pro graphics  
TRD radiator cap  
TRD shift knob, red or black  
TRD skid plate with red TRD logo

---

TRD front skid plate  
TRD performance air intake system  
TRD oil filter  
TRD performance exhaust with black chrome exhaust tip

---

TRD 16-in. forged matte-black alloy wheels  
TRD 16-in. off-road beadlock-style alloy wheels  
TRD shift knob  
TRD Pro graphics

SAFETY AND CONVENIENCE

Toyota Safety Sense™ P (TSS-P) includes Pre-Collision System with Pedestrian Detection (PCS w/PD), Lane Departure Alert (LDA) with Sway Warning System (SWS), Automatic High Beams (AHB) and Dynamic Radar Cruise Control (DRCC).

Star Safety System™ includes Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology®.

Driver and front passenger Advanced Airbag System

Driver and front passenger seat-mounted side airbags, driver and front passenger knee airbags, and front and rear Roll-sensing Side Curtain Airbags (RSCA)

Driver and front passenger active headrests

3-point seatbelts for all seating positions, driver-side Emergency Locking Retractor (ELR) and Automatic/Emergency Locking Retractor (ALR/ELR) on all passenger seatbelts

LATCH (Lower Anchors and Tethers for Childre) includes lower anchors for front passenger seat on Access Cab and outboard rear seats on Double Cab

Child-protector rear door locks (Double Cab only)

Remote keyless entry system with lock, unlock and panic functions

Smart Key System on driver's and front passenger door with Push Button Start (A/T only)

Auto-dimming day/night rearview mirror (4-cyl. only)

Tire Pressure Monitor System (TPMS) with individual tire location alert

Blind Spot Monitor (BSM) with Rear Cross-Traffic Alert (RCTA)

Rear parking assist sonar

Multi-terrain Select and Crawl Control (CRAWL) (4WD and A/T only)

Hill Start Assist Control (HAC) (A/T only)

Active Traction Control (A-TRAC) (M/T only)

Electronically controlled locking rear differential

Class-IV towing hitch receiver, ATF cooler (not available on M/T), engine oil cooler, power steering cooler, 130-amp alternator, 4- and 7-pin connector with converter, and Trailer-Sway Control (TSC) (V6 only)

Engine immobilizer

WARRANTIES

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage. You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details. For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

DISCLOSURES

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions. See Toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print).

2. Wireless data transmission may be subject to plan, service area, and conditions outside of Toyota’s control, including access to response center and emergency support. Stolen vehicle tracking requires the availability of a cellular connection, navigation map data and GPS signal strength, and other factors outside of Toyota’s control, which can limit functionality or availability. Valid in the continental U.S. Registration required. Service subject to change at any time without notice. Terms and conditions of subscription service agreement apply. Data charges may apply. Apple CarPlay® functionality requires a compatible iPhone® connected with an approved data cable into the USB media port. Apple CarPlay® is a registered trademark of Apple Inc. 9. Vehicle user interface is a product of Google and its terms and privacy statement apply. To use Android Auto on your car display, you’ll need an Android Auto compatible vehicle or aftermarket stereo, an Android phone running Android 5.0 (Lollipop) or higher, and the Android Auto app. Google, Android and Android Auto are trademarks of Google LLC. 10. Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates. Requires adequate signal strength and smartphone capability. See applicable application details for facts. Not all Amazon Alexa functionality is available for in-vehicle use. Alexa data charges may apply. Apps, prices and services subject to change at any time without notice. To learn more, go to https://www.toyota.com/audio-multimedia. To learn more about Toyota’s data collection, use, sharing and retention, please visit https://www.toyota.com/privacyvts/. 11. Advanced voice recognition capabilities vary by head unit. 12. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 13. SiriusXM® audio services require a subscription sold separately by Sirius XM Radio Inc. If you decide to continue service after your trial, you will be charged according to your chosen plan. Fee, taxes, and Internet access service provider fees apply. See SiriusXM Internet Radio service terms for complete details. SiriusXM services require a subscription sold separately, see SiriusXM customer service for details. App activation, account registration and other terms and conditions apply. 14. The Multi-terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm surrounding vehicle conditions. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 6. The Multi-terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 17. The Wi-Fi Connect trial period is at no extra cost and begins on the date of activation. After the trial period expires, enrollment in a paid subscription is required to access the service. Terms and conditions apply. 21. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HDRadio® and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. 22. The Dynamic Navigation three year trial begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in paid subscription is required to access the service. 23. Dynamic voice recognition capabilities vary by head unit. 24. Destination Assistance depends on an operative telematics device, a cellular connection, navigation map data and GPS signal strength and other factors outside of Toyota’s control, which can limit system functionality or availability. Valid in the continental U.S. Registration required. Service subject to change at any time without notice. Terms and conditions of subscription service agreement apply. See See Owner’s Manual and at https://toyota.com/connected-services for additional limitations and details. To learn about Toyota’s data collection, use, sharing and retention, please visit https://www.toyota.com/privacyvts/. 25. The Destination Assist Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in a paid subscription is required to access the service. 26. Information provided is based on the last time data was collected from the vehicle and may not be up to date. Service Connect depends on an operative telematics device, a cellular connection, navigation map data, GPS signal strength and other factors outside of Toyota’s control, which can limit system functionality or availability. Valid in the continental U.S. Registration required. Service subject to change at any time without notice. Terms and conditions of subscription service agreement apply. See usage precautions and service limitations in Owner’s Manual and at https://toyota.com/connected-services for additional details. To learn about Toyota’s data collection, use, sharing and retention, please visit https://www.toyota.com/privacyvts/. 27. The Service Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the respective trial period expires, enrollment in paid subscription is required to access the service. 28. Use only if aware of circumstances surrounding vehicle and it is legal and safe to do so (e.g., do not remotely start engine if vehicle is in an enclosed space or vehicle is occupied by a child). Remote Connect depends on an operative telematics device, a cellular connection, GPS signal strength and other factors outside of Toyota’s control, which can limit system functionality or availability. Service may vary by vehicle and region. Registration and app download required. Terms and conditions of subscription service agreement apply. Data charges may apply. Remote start/stop not available on manual-transmission-equipped vehicles. Service subject to change at any time without notice. See usage precautions and service limitations in Owner’s Manual and at https://toyota.com/connected-services for additional details. To learn about Toyota’s data collection, use, sharing and retention, please visit https://www.toyota.com/privacyvts/. 29. The Remote Connect trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. After the trial period expires, enrollment in a paid subscription is required to access the service. 30. JBL® and Clarity® are registered trademarks of Harman International Industries, Inc. 31. May not be available in all model years, trim levels, or territories. See Owner’s Manual for additional limitations and details. 32. This linen floor mat/floor liner is for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/floor liner on top of an existing floor mat/floor liner. 33. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 34. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 35. Toyota Safety Sense™ effectiveness is dependent on many factors including road, weather and vehicle conditions. Drivers are responsible for their own safe driving. Always pay attention to your surroundings and drive safely. See Owner’s Manual for additional limitations and details. 36. The Pre-Collision System (PCS)
DISCLOSURES (continued)

with Pedestrian Detection (PD) is designed to determine if impact is imminent and help reduce impact speed and damage in certain frontal collisions involving a vehicle or a pedestrian. PCS w/PD is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of involved vehicle, weather, and road conditions. See Owner’s Manual for additional limitations and details. 37. Lane Departure Alert with Sway Warning System is designed to detect and alert the driver to accidental lane departures. It is not a substitute for safe driving practices. 38. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather, lighting and terrain limit effectiveness, requiring the driver to manually operate the high beams. See Owner’s Manual for additional limitations and details. 39. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness is dependent on many factors including road, weather and traffic conditions. DRCC not available on manual transmissions. See Owner’s Manual for additional limitations and details. 40. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 41. Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner’s Manual for additional limitations and details. 42. Smart Stop Technology® operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner’s Manual for additional limitations and details. 43. Airbag systems are Supplemental Restraint Systems and are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner’s Manual for additional limitations and details. 44. Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 45. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimum performance, tire pressure should be checked regularly with a gauge; do not rely solely on the on-board monitor system. See Owner’s Manual for additional limitations and details. 46. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details. 47. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details. 48. Rear parking assist sonar is designed to warn drivers of potential rear collisions at speeds of 6 mph or less. Certain vehicle and environmental factors, including an object’s shape and composition, may affect the ability of the rear parking assist sonar to detect it. Always look around outside the vehicle and use mirrors to confirm rear clearance. See Owner’s Manual for additional limitations and details. 49. Crawl Control is designed for driving on difficult terrain at low speeds and assists the driver by controlling acceleration and braking, allowing the driver to focus on steering. The Tacoma is designed to meet off-road driving requirements, but off-roading is inherently dangerous. Always wear seatbelts. See Owner’s Manual for additional limitations and details. 50. Hill Start Assist Control is designed to help minimize downhill rolling on steep ascents. It is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 51. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weigh-On-Ground Limit. See Owner’s Manual. MagneRide, Torque Vectoring Differential, and any cargo and load capacity limited by weight and distribution. Always properly secure cargo and cargo area. The fenders, rear doors and doorgaps are not compatible with vehicles equipped with factory security and factory remote keyless entry system or Smart Key System. Toyota Paint Protection Film by 3M® is designed for specific sections of your vehicle. See Owner’s Manual for additional limitations and details. 82. Do not overload your vehicle. See Owner’s Manual for weight limits and restrictions. 83. Available for vehicles with factory remote keyless entry.
