More capable. More epic adventures.

The 2022 Tacoma makes your off-road, off-grid adventures possible. Bringing enhanced performance features and a robust exterior to match, Tacoma is ready to prove its capabilities where roads don’t exist. So gear up, get in and get ready to start your next epic adventure.
The power to rule any terrain.

Life is more epic with Tacoma. Equipped with an available 3.5-liter V6, which includes a standard Tow Package, Tacoma can tow up to 6800 lbs.2 And the 4-/7-pin connector sits cleanly inside the three-piece bumper, helping you haul your gear out without hitting any snags.

Available 6-speed transmission

If rowing through the gears is more your style, Tacoma offers a 6-speed manual transmission, on certain models, to put control firmly in your hands.

6800-lb. towing capacity

Whatever toys you’ve got, Tacoma’s got the power to bring ’em along. Its powerful V6 and available Tow Package help it tow up to 6800 lbs.2 or carry a payload of up to 1440 lbs.3

Trailer-Sway Control

Included with Tacoma’s available Tow Package, Trailer-Sway Control (TSC)4 applies brake pressure at individual wheels and manages engine torque to help maintain control of the trailer.

Part-time 4WD

Choose the drivetrain mode best suited for your adventure of the day. With part-time 4WD, you can easily activate 4WD capabilities with a simple turn of a knob.

3.5-liter V6 direct-injection engine

Tacoma’s available Atkinson-cycle 3.5-liter V6 with direct injection is the perfect blend of efficiency and power, giving you more of everything you want.
TRD PRO

Adventure like a pro.

Calling all off-road junkies — Tacoma TRD Pro returns, tougher than ever. Designed by the experts at Toyota Racing Development (TRD), the 2022 Tacoma TRD Pro is built to take on the world’s gnarliest terrain. The stuff you want — like uniquely designed TRD wheels and machine-forged upper control arms — all come standard. Tacoma TRD Pro brings capability and confidence to your adventures with enhanced performance features that help you conquer farther and wider.

Suspension lift

Equipped with a taller suspension — 1.5-in. front lift and 0.5-in. rear lift — and updated 16-in. TRD matte-black alloy wheels wrapped in Goodyear® All-Terrain tires, Tacoma TRD Pro is designed to clear rocky terrain without a hitch.

TRD-tuned FOX® Internal Bypass shocks

For ultimate performance and control, these shocks6 feature 2.5-in. aluminum housings; hardened, oversize shafts; and remote reservoirs in the rear. Designed to help provide more ground clearance, maximum damping and fade-free performance, the suspension helps smooth out the rough stuff.

Rigid Industries® LED fog lights

Designed for an OEM-perfect fit, these Rigid Industries® LED fog lights pack a lot of brightness into a compact package. Rugged construction and a 35-degree wide-angle beam pattern help ensure you have light when, and where, you need it.
CAPABILITY

Obstacles don’t stand a chance.

This is where the rubber meets the dirt. With available equipment like an electronically controlled locking rear differential, Crawl Control (CRAWL) and a Multi-Terrain Monitor (MTM), Tacoma is ready to take on tough terrain.

Electronically locking rear differential

Tacoma TRD Off-Road’s standard electronically controlled locking rear differential distributes engine power evenly to both rear wheels so they move at the same speed, providing more grip in low-traction conditions.

Crawl Control

When the trail gets challenging, Tacoma TRD Off-Road’s Crawl Control (CRAWL) is here to help you conquer your off-road adventure. This advanced system automatically modulates the throttle and brakes on five low-speed settings so you can keep your focus on navigating across difficult terrain.

Hill Start Assist Control

Tacoma’s Hill Start Assist Control (HAC) is designed to help you safely get up those hills. This technology helps minimize Tacoma from rolling backward when you move your foot from the brake to the gas pedal, so you can move upward with confidence. (HAC not available on TRD Off-Road 4WD M/T.)

Multi-Terrain Select

Tacoma TRD Off-Road features Multi-Terrain Select (MTS). With five modes to choose from, this system helps regulate wheelspin by automatically adjusting the engine throttle and traction control. When combined with standard Goodyear® Wrangler® tires with tough Kevlar® construction, Multi-Terrain Select helps improve traction dramatically.
Carry your boards, bikes and sense of adventure.

Bikes. Boards. You name it. Tacoma’s standard composite bed surface is built to withstand your rough-and-tumble adventure. Its integrated heavy-duty deck rail system makes it easy to tie down gear of all sizes. Now, when action calls, you’ll be ready to go.

Smart storage

With various hidden, locking storage areas, Tacoma keeps your gear out of the way, out of sight and ready for your next outing.

Trail Special Edition

Tacoma Trail Special Edition has the amenities you need to get comfortable for the adventure ahead. Lockable bed storage with insulation on the driver’s side lets you push your trips to the max. For added convenience, an available 120V bed outlet helps up your essentials.

Composite bed with 120V outlet

Tacoma’s bed is composed of an ultra-durable, fiber-reinforced Sheet-Molded Composite (SMC) surface that boasts a greater impact strength than steel, while an available bed-mounted 120V/400W outlet helps keep the action powered up.

Deck rail system

Tacoma’s bed comes standard with an innovative deck rail system. With four heavy-duty adjustable tie-down cleats, you’ve got the strength and adjustability you need to keep your cargo securely strapped down.
DESIGN

Show off your pride and joy.

With its redesigned, aggressive grille and available smoked headlight and taillight housings, Tacoma remains the best-looking truck on the trail. But it’s about more than tough looks; Tacoma is also all about comfort on the inside, with features like a Qi-compatible wireless charging pad.¹⁵

Nightshade Special Edition

Cruise down the street in Tacoma Nightshade Special Edition and show off the rig’s darker side. Blacked-out exterior trim and dark smoke 18-in. alloy wheels, exhaust tip and exclusive grille — all add a little more mystery to your adventures.

Dual zone automatic climate control

Standard on all V6 Tacomas, the dual zone automatic climate control lets the driver and passenger personalize comfort while out on the trails. Just set the temp to your liking, and Tacoma does the rest.

LED headlights

Tacoma’s available LED headlights use LED elements for both the low and high beams, giving you bright, efficient light when you need it. And since they’re bolted to the front of Tacoma, you can bet that they look awesome too.

Panoramic View Monitor

Get into and out of that campsite with ease. Tacoma’s available Panoramic View Monitor (PVM)¹⁶ uses cameras on the front, sides and rear of the truck to give you a 360-degree view of what’s going on outside.

Trail Special Edition wheels

Tacoma Trail Special Edition’s exterior details embody the adventurous spirit of this truck. The matte-finish bronze-colored wheels and badging complement the new exterior color in Lunar Rock and the color-keyed rear bumper, adding to this truck’s bold style.

10-way power-adjustable seat

Take comfort to new heights. Tacoma features an available 10-way power-adjustable driver’s seat that includes 2-way lumbar support.

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

**Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items).

**Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

**Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal).

**Emissions:** Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

**Accessories:** For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle’s in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

DISCLOSURES

1. The Toyota Tacoma is designed to meet most off-road driving requirements, but off-roading is inherently dangerous and may result in vehicle damage. Toyota encourages responsible operation to help protect you, your vehicle, and the environment. Seatbelts should be worn at all times. Do not allow passengers to ride in cargo area. 2. Before tow ing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner’s Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. Added vehicle equipment (includes standard and optional equipment, and accessories) and weight distribution must be considered. The only way to be certain of your vehicle’s exact curb weight is to weigh your vehicle without passengers or cargo. [Calculated with the new SAE J2807 method.] Installation of a tow hitch receiver or other accessories located near the rear bumper or side-door kick sensors may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. See Owner’s Manual for additional limitations and details. 5. Goodyear® is a registered trademark of The Goodyear Tire & Rubber Company. 6. FOX is a registered trademark of FOX Factory, Inc. 7. Rigid Industries® is a registered trademark of JST Performance, LLC d/b/a Rigid Industries. 8. Certain operating conditions and equipment affect the effectiveness of the Panoramic View Monitor including the distance to the object in front of your vehicle, the clearness of the overall image, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Service may vary by vehicle region. 9. Qi wireless charging is not available with all mobile phones, MP3/WMA players and like models. When using the wireless charging system, avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns. 16. The Panoramic View Monitor does not provide a comprehensive view of the area surrounding the vehicle. You should also look around outside your vehicle and use your mirrors to confirm surrounding clearance. Environmental conditions may limit effectiveness and view may become obscured. See Owner’s Manual for additional limitations and details. 17. Connected Services depends on factors outside of Toyota’s control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Service may vary by vehicle region. 18. Safety Connect® depends on factors outside of Toyota’s control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. See Owner’s Manual for additional limitations and details. 19. Requires adequate cellular coverage and GPS signal strength. May not work in all areas. Service may vary by vehicle region. See Toyota Dealer for details and exclusions. 20. Information provided is based on the last time data was collected from the vehicle and is not real time data. Service Connect depends on factors outside of Toyota’s control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Service may vary by vehicle region. 21. Use only if aware of circumstances surrounding your vehicle and it is legal and safe to do so (e.g., do not remotely start engine if vehicle is an enclosed space or vehicle is occupied by a child). Toyota Remote Connect depends on factors outside of Toyota’s control, including an operable telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. and any use of such marks by Toyota is under license. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier.

40. May not be compatible with all mobile phones, MP3/WMA players and like models. 41. Rear parking assist sonar is designed to warn drivers of potential rear collisions at speeds of 6 mph or less. Certain vehicle and environmental factors, including an object’s shape and composition, may affect the ability of the rear parking assist sonar to detect it. Always look around outside the vehicle and use mirrors to confirm clearance. See Owner’s Manual for additional limitations and details. 42. Dynamic Navigation depends on factors outside of Toyota’s control, including an operative telematics device, a cellular connection, GPS signal, and the availability of a compatible wireless network, without which system functionality and availability may be limited or precluded. Services not available in every city or roadway. Use common sense when relying on information provided. Service may vary by vehicle and region. Registration is required. Subscription required after trial. Terms of Use apply. Data charges may apply. See Owner’s Manual and https://www.toyota.com/connected-services for additional limitations and details. To learn about Toyota’s data collection, use, sharing and retention practices, please visit https://www.toyota.com/privacy/.

43. The Dynamic Navigation trial period is at no extra cost and begins on the original date of purchase or lease of a new vehicle. Paid subscription required after trial to access the service. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner’s Manual for additional limitations and details. 44. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection and range of the system. See Owner’s Manual for additional limitations and details. 46. This floor mat/liner was designed specifically for use in your model and model year vehicle and SHOULD NOT be used in any other vehicle. To avoid potential interference with pedal operation, each mat/liner must be secured with its fasteners. Do not install a floor mat/liner on top of an existing floor mat/liner. 47. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 48. Replaces chrome rear bumper with color-keyed rear bumper on Tundra Off-Road models. 49. HomeLink® and the HomeLink® house icon are registered trademarks of Gentex Corporation. 50. Extra-cost color. 51. BedStep® is a registered trademark of AMP Research. All rights reserved. 52. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. If you would prefer a vehicle with no or different options, contact your dealer to check for current availability or the possibility of placing a special order. Color(s) depicted may vary based on multiple factors, including ambient lighting and the format in which it is being viewed (e.g., computer, mobile device or print).

53. Advanced voice recognition capabilities vary by head unit. 54. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. 55. Dynamic voice recognition capabilities vary by head unit. 57. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 58. Brake Assist is designed to help the driver take advantage of ABS and is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, tire and road conditions. See Owner’s Manual for additional limitations and details. 59. Smart Stop Technology® operates only in the event of certain contemporaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. See Owner’s Manual for additional limitations and details. 60. Airbag systems are Supplemental Restraint Systems and are designed to inflate only under certain conditions and in certain types of severe collisions. To decrease the risk of injury from an inflating airbag, always wear seatbelts and sit upright in the middle of the seat as far back as possible. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. See Owner’s Manual for additional limitations and details. 61. Active front headrests can help reduce the extent of whiplash in certain types of rear-end collisions. 62. The engine immobilizer is a state-of-the-art anti-theft system that is initiated when you insert your key into the ignition switch or bring a Smart Key fob into the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle’s immobilizer. The transponder chip is embedded in the key/fob and can be costly to replace. If you lose a key or fob, your Toyota dealer can help or go to www.aloa.org to find a qualified locksmith in your area who can perform high-security key service. 63. ToyotaCare covers normal factory scheduled maintenance for two years or 25,000 miles, whichever comes first.
